

SHIFT\_the future

# X-TRAIL

*A SHIFT\_can change a  
person. A life. The world.*

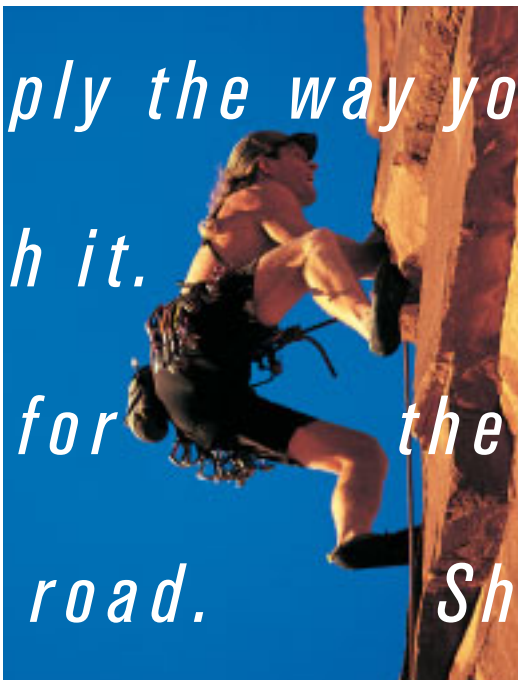

*Or simply the way you move  
through it.*

*Don't  
settle for the middle  
of the road. Shift\_*

*your limits. Shift\_direction.*

*Shift\_the possibilities.*

*Shift\_the future.*

*X-TRAIL*  
*fun*

Go where you want. Do what you want. Be what you want. X-TRAIL is no pretender. It's a true compact 4WD. What else would you expect from a company that's been building 4WDs for over 50 years? It's rugged and refined, vigorous and versatile, spacious and sporty. Most of all, it's fun. Only Nissan takes the compact 4WD to the extreme.

## DIAL UP\_action

The X-TRAIL is a car designed to take you anywhere. Down to the shops or out to the back of beyond. A big part of that ability is the intelligent ALL MODE 4X4 system. It gives you easy dial selection of two wheel drive (driving the front wheels, for optimum fuel economy), lock mode (with 57/43 front/rear torque spread for more serious off-roading) or Auto mode. 

Auto mode is both proactive and reactive. If it senses potential loss of grip, the electronic control unit instantly apportions the ideal amount of torque to the rear wheels. If road conditions suddenly change, it automatically increases torque to the rear wheels to maintain stability.

ALL MODE 4X4 is the technology you need to take you anywhere you want to go. And the beauty of the X-TRAIL is you can take just about anything you need with you, its luggage space is almost infinitely versatile. Naturally, all the surfaces are dirt and water resistant as well as being easy to clean.

Open up the rear and you've got a luggage area over one metre deep. Fold down one of the rear seats and you have room for a mountain bike.

Drop both rear seats and the front passenger seat and the options grow with the space. Bikes, piles of gear, even a long surfboard can fit inside the X-TRAIL. And if your mountain bike has just come down a mountain, don't worry about it. Because the X-TRAIL's rear luggage board can be removed and hosed clean.

*But what's on the inside?*

*Chiller box. Washable luggage*

*board. Keyless entry. Cruise*

*control. CD player. Map pockets.*

*Double glove box. 3x 12 volt*

*power outlets. CD holder.*

*Air Con. Driver's dash box. Power*

*windows. Front chilled drink holder.*

*Everything that opens and shuts.*

## *SHIFT\_your limits*

Exploring off-road or just cruising the highway, X-TRAIL's engine really delivers. It's a gutsy 2.5 litre engine with plenty of power and torque. But despite all its energy, it has very low noise and vibration.

You get excellent low to mid range torque as well as power to spare at the high end. So you can make it up that steep gravel hill as easily as passing that roadtrain. And do it all without being shaken around in your seat or being deafened by the noise.

For those of you into numbers, prepare to be impressed. X-TRAIL delivers maximum power of

132kW @ 6000rpm and maximum torque of 245Nm @ 4000rpm.

The transmission also boasts some impressive technology. Whether it's the electronically controlled 4 speed auto or the 5 speed manual, you'll find gear changes are incredibly smooth even if the road you're on isn't.

## CLIMB\_ aboard

Fortunately the X-TRAIL has taken safety to the extreme too. X-TRAIL maintains and improves upon Nissan's three tier safety program. This involves an approach to safety which encompasses three different disciplines: Impact Safety, Control Safety and Information Safety.

Let's take a look at Impact Safety. The high intensity cabin structure is designed to protect occupants by maintaining its integrity in a collision. Dual SRS airbags protect the driver and front passenger in front collision impacts. Ti model also includes driver and front passenger SRS side airbags for added safety.

EBD = Electronic Brakeforce Distribution  
BA = Brake Assist  
ABS = Anti-lock Braking System  
SRS = Supplementary Restraint System

Now onto Control Safety. Electronic Brakeforce Distribution (EBD) provides advanced braking control in every load situation for safe and stress-free driving.

The Anti-skid Braking System (ABS) optimises braking performance, helping the driver retain directional control, especially on slippery surfaces. While the Brake Assist (BA) system applies additional stopping power in hard or panic braking situations.

X-TRAIL also delivers on Information Safety. The UV-cut glass windscreen reduces glare while driving. The CSR halogen headlights provide the brilliant illumination you need, especially when you're on a lonely highway or a remote track. While the Ti also gives you fog lamps.

X-TRAIL's keyless entry/immobiliser controller enhances vehicle security by switching on the interior lights when you unlock the car. The controller also features a panic button.

## Ti.

2.5 litre DOHC engine.  
 ALL MODE 4x4.  
 Cruise Control.  
 16" Alloy Wheels.  
 ABS.  
 Electronic Brake Distribution.

## *GENUINE accessories*

These are just some of the accessories available to personalise your X-TRAIL. See your Nissan Dealer for the complete list.

- Alloy nudge bar.
- Roof bars.
- Carpet mats.
- Cargo barrier.
- Rear protection tray.
- Rear carpet cargo mat.
- Rear spoiler for ST model.
- Bonnet guard.
- Tow bar.
- Fog lamps.
- Headlight covers.
- Monsoon shields.
- Rear cover blind.
- Entertainment (NRSE).

## SHIFT\_possibilities

Your individuality gives you a character which adapts to the demands and opportunities of each day. At Nissan, we're focussed on designing cars which offer that same individuality: cars that are adaptable, personal and have a character that complements yours. We want to shift your expectations. We want to shift your imagination. We want to shift the future.

### ^ PULSAR\_

The Nissan Pulsar has been designed with one deceptively simple aim - to offer drivers all the features they desire in a small car. Whether it's the contemporary styling of the Sedan or the dynamic sporty lines of the Hatch, Pulsar's style is unrivalled.

### < MAXIMA\_

Maxima offers a modern definition of luxury. A car that relaxes and invigorates. All with an effortless 3.5litre V6 engine.

## Nissan Finance.

We can provide a range of finance and leasing packages tailored to meet your needs. When you have chosen the Nissan that you want, simply talk to your Nissan Dealer for details.

## Premium Care.

At Nissan, we never forget who buys our cars and who drives them - you, our customer. That's the basis of our 'customer first' policy and the reason why your X-TRAIL, along with every other new Nissan, comes with the assurance of Premium Care, an exclusive package of extras designed to cater to your every motoring need.

### < PATROL\_

More power than V8 Explorer and V8 Lexus. It is, quite simply, the most powerful Patrol ever.

### > NAVARA\_

It's a work ute. It's a recreational vehicle. It'll help on the building site. It'll work on the farm. Navara is ready for anything.

### < PRIMERA\_

The Nissan Primera has always been ahead of its time. One look at the advanced interior and exterior design tells you that the tradition continues. Technology has created a new interface between man and machine, with an unprecedented balance of handling and riding comfort.

### > 350Z\_

It's a car with a cabin that feels as if it's been poured around you. It's a car that rewards the driver. It's a car that has been designed and built from 100% desire. It's the Nissan Z Roadster or Coupe.

3 Year/100,000km Warranty

A comprehensive warranty covering your vehicle for 3 years or 100,000km, whichever comes first.

Customer Assistance Centre

We have a 24 hour free phone (0800 808 606) support line if you require roadside assistance.

Complimentary Rental Car and Accommodation. If you're more than 100km from home and your car is off the road due to mechanical fault, we'll supply you with a complimentary rental car (if your vehicle takes more than 8 hours to repair) and up to 3 nights accommodation\*.

\*Special conditions apply. Please refer to your Warranty Booklet for full details.
